FAILED TO EXPLODE.

An Infernal Machine Sent to President McBride.

IT CAME FROM PENNSYLVANIA.

The Breaking of a Thread Probably Saved His Life—The Miners' Strike a Success in One Section of the Coke Region—Indiana Block Miners Going Out—Progress of the Strike Elsewhere.

COLUMBUS, O., April 27.—President John McBride received an infernal machine in his mail yesterday morning. Externally it seemed to be an ordinary pamphlet, was wrapped in an extra heavy manilla mailing cover, and was addressed to President John McBride of the United Mine Workers Union, Special, Columbus, O.

President McBride opened it himself. Its character was instantly revealed, though it did not explode, and naturally he was much alarmed. It consisted of a pamphlet about 10 inches long and 6 wide, folded in the middle lengthwise. The space between the bent covers held the explosives, while the apparatus for ignition was on the outer flexure of the cover and in a mortise running through to the magazine inside.

A match with its head held firmly down upon a piece of sandpaper, was fastened by a string at the other end to the wrapper, so that when the latter was removed the match would be lighted by friction on the sandpaper. It is a miracle that it did not ignite. The string broke. It was a light sewing thread and not strong enough.

Within the bent cover of the pamphlet was a small paper bag containing some explosive, it is thought, while all about this was gun cotton and gunpowder. President McBride says he opened it carefully with his paper knife, and that it did not explode was certainly not due to any care in removing the wrapper. He thinks that, beyond a question, it was an attempt to assassinate him, and has turned the package over to the police, with the request that its character be established, and has also notified Postmaster Senter. The pamphlet seems to be a publication made in Pennsylvania, but as its title page is turned in, this can not be clearly made out. Of course, mail matter of this kind bears no postmark, and there is no way of telling where it came from.

The pamphlet used in the infernal machine is the report of the normal school at Clarion, Pa., for the year 1893-94. It is also discovered that a second magazine is formed by a mortise in the back of the pamphlet. A piece of paper is pasted over this, but it can be felt that it is packed with some hard substance.

It is believed if Mr. McBride had pulled the strings tying the package to break them, damage might have ensued, provided the contents were really explosive, but since he cut the strings and discovered immediately that fillings of an unusual kind were enclosed, he evidently deflated the plan of the conspirator if the sender may be called such.

Mr. McBride yesterday received from the general master workman of the Knights of Labor fraternal greetings and guaranteeing fullest possible aid in the struggle for equity and justice.

West Virginia miners at Beechwood telegraphed President McBride that 21 mines, employing 8,500 miners, are idle.

IN THE COKE REGION.

Many Plants Idle, and but Two Are Running Full.

CONNELLSVILLE, Pa., April 27.—The strike is a success in this section of the coke region. The plants in operation yesterday were Frick's Davidson and Leishning; Meyer, Fort Hill and Itainey; of the Ruddy company, and Claissa and Nellie of the Cochran company. None of these, except the two Frick plants, are running full.

President Barrett presided at a large mass meeting at Dunbar. Barrett warned the strikers that a resort to violence would cost them a victory, which he predicted would come within two weeks if they held together peaceably. This meeting had the effect of closing all the works in that vicinity. Hill Farm and Wheeler came out immediately.

A big meeting was held at Vanderbilt. Nearly 1,000 strikers attended, and there was a fair representation of English-speaking workmen. All voted to come out and remain out until the entire region is granted a uniform scale.

The Vanderbilt end of the district is the hardest to get out. The operators have promised the men that if they work through the strike they will grant the scale agreed on by the other companies at the end of the struggle. The strike leaders are determined to bring the Vanderbilt region out.

INDIANA BLOCK COAL MINERS.

It Is Now Apparent That They Will Join the General Strike.

BRAZIL, Ind., April 27.—It is apparent now that the miners of the block coal fields of Indiana will join the general strike in the other coal producing states. The block miners had agreed with the operators to work until May 1, but the striking bituminous miners formed in mobs and visited the block miners and induced the men to come out. In some instances they make the argument doubly forcible with blows.

Wednesday the bituminous strikers divided into two mobs, and headed by bands of music, started on a circuit of the district, visiting every mine and inducing the block men to come out. Mines Nos. 4 and 5 of the Crawford Coal company closed yesterday. About 200 bituminous men visited Carbon yesterday, and the miners quit work there.

They also visited the Eureka mine and that of the McIntosh company with similar success.

The employees in the Brazil Block Coal company's mine No. 8 came out Wednesday night and the men in Nos. 3, 4 and 9 agreed to come out. About 200 bituminous men, headed by a band, went to Caseyville and induced the men in the mine there to join them.

The bituminous miners are determined that the block men shall join them and soon, it is said, there will not be a mine in the whole block coal district in operation. Bituminous men marched through this city yesterday headed by five and drum, on their way to the mines just north of here.

Troops Hugged For.

SPRINGFIELD, Ill., April 27.—At 11 o'clock Thursday night Acting Governor Gill received a second dispatch from Sheriff Lenz of Marshall county urging that the presence of the militia at Toluca is absolutely necessary to protect the miners at work and the property of the company, stating that 3,000 strikers of all nationalities were on the march for that place. The dispatch was also signed by the mayor and city officials and officers of the mining company. The governor declined to order out the troops, but left the city at midnight for the scene, telegraphing the sheriff of his coming.

A New Industrial Army.

ST. LOUIS, April 27.—The following was received from Spring Valley, Ill., Thursday evening:

This afternoon a new industrial army started on the march, and before it reaches its destination, the outlook is that it will be larger than all the commonwealers and industrialists of Coxey and Kelly put together. A wing of an army of miners left this city Thursday afternoon for Toluca, Charles J. Devlin's new mining town, where some 500 men are working in the mines. Nearly 2,000 men moved from this city, and other miners were simultaneously marching in from neighboring mining camps. Ladd sent a delegation of 400 miners.

Five commissary wagons were filled with food, the contribution of business men. Fred Knowles is commander-in-chief of the forces. He issued an order to the effect that no one would be allowed to carry arms. The sheriff of Marshall county, with a lot of deputies, is at Toluca, awaiting the Spring Valley army.

Attempted Assassination.

GREENSBURG, Pa., April 27.—A dastardly attempt was made near Mammouth to assassinate Sheriff McEann. He left Mount Pleasant by himself in a buggy to drive home at night, and when a short distance from Mammouth, he noticed two ugly-looking huns or slaves crouching behind a little outbuilding and just as he got past them two shots were fired at him, and so close did they come to hitting him, that he could hear the balls whistling. An effort will be made to run down the would-be assassins.

Politics May Take a Hand.

PITTSBURG, April 27.—A possible settlement of the coal strike through political action is not unlikely.

Thursday National Organizer Miller admitted having advocated in several meetings that, if the operators prove more obdurate than expected, miners in some particular congressional district should induce their congressmen to introduce a bill looking to the government taking charge of coal mines. Then those of other congressional districts will follow with similar petitions.

In the Kanawha Valley.

CHARLESTON, W. Va., April 27.—Six of the 26 Kanawha mines have struck and expected others will follow. Delegates from the United Mine Workers are straining every nerve to make the strike general. It is now thought they will succeed except with four or five nonunion mines which will work as long as permitted. A part of the New River mines are still running. In the Pocahontas field the mines are running, but it is thought they will go out May 1.

A Cut of 33 1-3 Per Cent.

TOLEDO, April 27.—A 33 1-3 per cent cut was made Thursday in the wages of the 1,500 employees of the Wheeling and Lake Erie railway. Orders to this effect have been issued from the general offices in this city. The cut will affect all grades of employees from the top down. This action is caused by the present big strike among the coal miners.

Illinois Miners' Conference.

SPRINGFIELD, Ill., April 27.—The state miners' conference adjourned yesterday, after a two days' session. Resolutions were passed pledging all delegates to work for the success of the miners' strike to prevent, if possible, any miners from going to work and to protect the lives and property of all during the progress of the strike.

Negroes to Take Strikers' Places.

PITTSBURG, Kan., April 27.—One hundred and twenty-five colored miners and their families passed through the city yesterday via the Memphis route on their way to Birmingham, Ala., where they will be distributed among the various coal mines in Alabama to take the places of striking miners in that section.

Coal Famine Threatened.

PITTSBURG, April 27.—A coal famine in Pittsburgh and vicinity is inevitable within a week if the big strike is not settled sooner. Already retail dealers are refusing to sell in any considerable quantities to householders and prices have almost doubled since the strike began.

Six Hundred From Peru.

PERU, Ill., April 27.—Fully 600 miners left here yesterday afternoon for Toluca. They were to be joined a few miles south by miners from Spring Valley, Laceyville, Ladd, Seatonville and then march to Toluca, 8,000 strong.

Hunting Nonunion Coal.

WHEELING, April 27.—Nothing is known here of any action by Baltimore and Ohio engineers to refuse to haul nonunion coal. Monongahela coal is being hauled through to the west as usual.

Refused to Strike.

NEVADA, O., April 27.—The Vernon and Bates county coal miners, 1,000 in number, have refused to obey the strike order of the United Mine Workers of America.

Discharged.

UNIONTOWN, Pa., April 27.—Yesterday 20 of the 49 strikers held Wednesday for the murder of Chief Engineer Paddock were discharged by the court.

Defaulter Attempts Suicide.

TOPEKA, April 27.—Robert S. Stewart, treasurer of two lodges of the Ancient Order of United Workmen, and a select knight respectively, is a defaulter in \$1,000. He confessed that he has been taking money for the past four years. He made an unsuccessful attempt to commit suicide.

Frank Hatton Better.

WASHINGTON, April 27.—There is a marked improvement in the condition of Mr. Frank Hatton, and his symptoms are favorable for an early recovery.

ONLY JUST COMMENCED.

The Revolution So Far as Rio Grande do Sul Is Concerned.

NEW YORK, April 27.—The Herald has the following special from Buenos Ayres via Galveston and the Mexican cable:

General Silveira Martins claims that the Brazilian revolution, as far as the state of Rio Grande do Sul is concerned, has only just commenced. General Saravia's cry is now for the autonomy of the state, or else for its complete separation from the republic.

Gives Them Warning.

Barros Casal, a prominent insurgent chief of the republican party in Rio Grande do Sul and an ex-governor of the state, has issued a manifesto in which he counsels his friends to withdraw from the revolutionary movement. He says that he trusts the military position of the central government will cease as soon as President-elect Moraes assumes the presidency.

Three Spies Headed.

The Herald correspondent at Santa Ana says that when the federals occupied that town they decapitated three government spies, who had been captured in the suburbs.

Brazilian Refugees.

The Herald correspondent at Montevideo writes that the Brazilian refugees have been transhipped to the Pedro Terceiro, and will probably leave on Friday. The government has canceled the order expelling General Silveria Martins.

It is claimed that he was intimidated into doing this by the strength of the petition signed by a delegation of congressmen and the minister of foreign affairs. General Salgado's soldiers have declined the amnesty offered by President Peixoto, and will ask to be drafted into the army of Uruguay. The Brazilian minister, however, has found in their ranks and has reclaimed 375 men who were formerly in President Peixoto's troops of the line. They had been taken prisoners by the rebels, and had been in their hands ever since the fall of Lapa some time ago.

To Intercept the Portuguese.

Portugal is attempting to evade giving the satisfaction which it promised to Argentina, and now complications have arisen. The government is sending a warship to the mouth of the River Plata to intercept the Portuguese men-of-war, Albuquerque and Mindello, which had the refugees on board, and insist upon a compliance.

Dying From Their Wounds.

The Herald correspondent on board the Albuquerque, in writing about the Brazilian refugees, says that two of them reaptured from the Argentine forces are dying from the effect of the wounds inflicted by the Portuguese marines. The remaining 28 are in irons.

Mello's Ships in Bad Shape.

Admiral Mello's ships have been manned by Argentine forces, and are now awaiting orders for delivery to President Peixoto's representatives. All of them require docking and extensive repairs to their machinery. The Republic, Urano, Iris and Meteor are virtually ruined. Their armament is in bad condition, and the hull of the Urano has been riddled by no less than 87 cannon balls.

May Be Quarantined.

The government employment bureau here is endeavoring to place in quarantine on the island of Martin Garcia, the Brazilian refugees now quarantined with Admiral Mello. It is believed that many of them will enlist in the Argentine army and navy.

Battle at Caverna.

The Herald correspondent at Rivera, writes that in a battle at Caverna between the government forces and the federals under the command of General Naneco Machado, the former were defeated.

Minister Resigns.

Dr. Pase, the Argentine minister in Paris, has resigned, and General Mitre will probably be appointed to succeed him.

At Cheboygan, Mich., the Union House and other frame buildings burned. Dr. Howell, a veterinary surgeon, and a woodsman named Clune were suffocated.

SAD BLOW TO COXEY.

The Senate Votes Down Senator Allen's Resolution.

DEFEATED BY A VOTE OF 54 TO 6

Several Senators Protest Against the Measure—Mr. Allen Calls the Coxeyite Demonstrations the "Spontaneous Uprising of the American Citizens Against Wrong and Oppression."

WASHINGTON, April 27.—Immediately after the reading of the journal in the senate Mr. Jarvis, recently appointed from North Carolina to succeed the late Senator Vance, was sworn in.

Senator Allen's Coxey resolution came up, and Mr. Allen stated that there would be no opposition on the Democratic side to its passage.

The resolution demands that congress break all its rules and allow the "armies" to invade the city, the Capitol and the public parks.

Mr. Vest (Dem., Mo.), however, opposed the resolution. These people should be treated the same as all other citizens of the United States.

Mr. Wolcott (Rep., Colo.) entered a vigorous protest against passing the resolution. He was at a loss to understand the purpose of the resolution, which did not change the law in any respect, but simply extended a cringing invitation to those men calling themselves unemployed, some of whom were coming by begging, some by their overpowering force and some on stolen trains.

Mr. Wolcott said he was tired of dealing with these methods of administration. The times were out of joint, but what made them so might be attributed to one cause or another. He believed that most of the men in Coxey's army might be honest, but they were led by men who were cranks, insane or vicious. But their methods of righting the wrongs of the time could result in no good; this could only come from the natural beneficence of mankind, which, as the world grew better, made men more humane and kind.

A number of senators took the pains to go to Senator Wolcott on the floor after he had concluded his remarks and express their approval of what he had said.

Mr. Dolph (Rep., Or.) stated that he fully agreed with what the senator from Missouri (Mr. Vest) had said, but he called attention to other objectionable features of the preamble to the resolution. No one denied the right of citizens of the United States to peaceably assemble to petition congress or to visit the Capitol. His objection to the resolution lay in the fact that it was accompanied by a lying preamble which was in effect a censure of the authorities of the District of Columbia.

Mr. Gray (Dem., Del.) also condemned the resolution, even while he said he would vote for it if the preamble was omitted. He admitted that he had a kindly sympathy for the vagabondage which made our roads so picturesque in summer.

Mr. Allen defended his action in introducing the resolution and spoke for some time. In the course of his speech, he called these gatherings the "spontaneous uprising of American citizens against wrong and oppression." He criticized the action of the commissioners of the District of Columbia in issuing a proclamation warning Coxey's army against entering the district.

At 1:40 o'clock, before any action had been taken on the resolution, Mr. Harris moved to take up a resolution providing that "tomorrow and until otherwise ordered, the senate shall meet at 11 o'clock a. m."

Sensors Peffer and Allen objected to the pending resolution being displaced, and demanded a ye and nay vote. The vote, which also showed the attitude of the senate on Mr. Allen's resolution, stood 54 to 6 against it, Allen, Dolph, Frye, Gallinger, Kyle and Peffer voting for it.

The senate without division then agreed to the resolution, and Mr. Harris moved to take up the tariff bill, and Mr. Higgins (Rep., Del.) took the floor in opposition to the bill. He finished at 5 o'clock.

Senator Gray then recalled the proposed amendment to the rules offered by him several days ago, prohibiting a senator from reading his speech, and asked its reference to the committee on rules. Mr. Dolph, who was speaking when the senate adjourned Wednesday, was then recognized and gave a further installment of his tariff speech began on the 20th inst.

At 5:40 p. m. the senate went into executive session, and immediately afterward, at 6:20, adjourned.

House.

Mr. Hepburn (Rep., Ia.) interposed his daily objection to the approval of the journal in the house and compelled a roll call, which resulted in its approval, 273 to 0.

The speaker appointed the following boards of visitors: The military academy, Messrs. Black, Illinois; Hatch, Missouri; and Curtis, New York; to the naval academy, Messrs. Myer, Louisiana; Onthwaite, Ohio, and Raudall, Massachusetts.

At this point became visible the first effects of the attempt to enforce the law of 1856 to "dock" members for absence, except on account of sickness.

Mr. Mahan (Rep., Pa.) precipitated the matter by rising to a question of privilege and offering a resolution directing the sergeant-at-arms to pay members their salaries without any deduction on account of absence unless such absence is first certified by some duly authorized officer of the house.

A point of order was raised by Mr. Kilgore, and supported by several Democrats, that the resolution did not present a question of privilege. The point was sustained by the speaker on the

ground that it was a matter of law and not under the control of the house.

"But that is not the law," interjected Mr. Reed.

"That," said the speaker, "is not a question for the house to determine." He added that he should decline to certify salaries unless members informed him how much salary was due them.

Another resolution was promptly offered by Mr. Mahon declaring that the sergeant-at-arms, in the absence of any rule, has no authority to require members to report absences and reasons therefor. This also was ruled out of order, and an appeal was laid on the table by a strict party vote, except that Mr. Lucas (Rep., S. D.) voted with the Democrats.

The house then went into committee of the whole and resumed the consideration of the diplomatic and consular appropriation bill. Debate proceeded during the afternoon in a desultory manner on small unimportant amendments, none of which were adopted. When the bill was completed the committee rose. The bill as passed carries \$1,513,733, a decrease of \$16,706 compared with the appropriations for the current year.

At 5 o'clock the house adjourned.

COXEY'S CROWD.

Notes From the Commonwealers All Over the Country.

Oklahoma, it is said, will send an army of 700 to Washington.

The Seattle army will endeavor to capture a train and save their shoes.

Coxey and his Massillon army spent Thursday night at Hyattstown, Md. Reaching headquarters have been opened in Detroit by James Eldridge of San Francisco.

The Tacoma contingent will start east Saturday, under Marshal Drake. Three thousand men are expected to leave.

Cripple Creek, Colo., has organized a contingent of Coxey's army with S. S. Sanders, a friend of General Kelly, in command.

Colonel Garvin, with 215 commonwealers, were ordered out of Washington C. II., O., Thursday by the mayor and sheriff and started on a march to Columbia.

The Providence division of the Coxey army spent Thursday night at Danielsonville, Conn. It was a disreputable looking gang. They were furnished supper by sympathizers.

The commissioners of the District of Columbia have refused to allow the Coxeyites to hold open air meetings, and the commonwealers and their supporters are very wrathful in consequence.

General Grayson's army came into Orchard, Colo., with flags flying. The industrialists were not very cordially received and no preparations had been made by the people for their entertainment.

A meeting of the citizens of Crested Butte, Colo., was held Thursday, at which 150 persons signed articles endorsing the Coxey movement and organizing a contingent of Coxey's army reserve. The army will number 250 men.

The men arrested at Forsythe, Mon., were turned over to the United States marshals and were taken to Butte for trial, accompanied by two companies of regular troops to protect the officers from the 500 vagrants in line.

George Francis Train is now lecturing for Coxey in Washington. He has hired two halls in which speeches are to be made when the various industrial armies arrive in Washington. Train predicts a revolution such as the world has never seen.

An industrial army about 500 strong camped at Troutdale, 18 miles from Portland, Or., took possession of the Union Pacific station and drove out the operator. Sheriff Kelly requested Governor Penoyer to order the militia to Troutdale, but the governor refused to comply.

Instructions were received Thursday at the department of the Columbia to hold five companies of United States troops in readiness to march at an hour's notice, if required, in enforcing the order of the United States court relative to the threatened capture of a Union Pacific train near Troutdale.

Colonel Frey, with his industrial army, reached Indianapolis Thursday and was received in grand style by General Ambrey and his followers. In the evening Frey, with local representatives of local labor organizations, called on Governor Matthews. Frey expects to remain at the Hoosier capital for some time and make speeches in a tent, charging his hearers 10 cents admission.

In view of the reports from Idaho that a Coxey army is organizing in the Couer d'Alene mining district in the northern part of the state, and that an attempt at any time may be made to seize a train, Attorney General Olney, after a conference with Senator Dubois Thursday afternoon, sent a telegram to the United States marshal of Idaho similar in character to those sent to the marshals of Montana.

The Rock Island officials anticipate serious trouble with the industrial army, and the camp deputies and railroad people are in a state of excitement over what is feared an approaching crisis. Over 100 men of the Sacramento division at Adair, Ia., asserted that they would walk no further, and announced that they had determined to ride, and to ride a Rock Island train. The Rock Island wired east and west for additional men, and a good sized force of burly railroaders will accompany every train that goes out. The army at Adair numbers 1,250.

The trial of Grand Chief Ramsey of the Order of Railway Telegraphers, indicted for interfering with the telegraph service of the Burlington, Cedar Rapids and Northern company, began at Cedar Rapids, Ia., Wednesday.

The 24,000 strikers in Vienna will be joined next Monday by 40,000 men from the building trades. The 40,000 men have demanded higher wages, but the master builders and contractors have refused to grant their demands.

The movement looking to a British protectorate over the Samoan islands is no longer disguised, but is going on in a manner which would seem to indicate that Great Britain believes she would be supported by Germany in the matter.

GET YOUR FIGHTING CLOTHES READY.

Here are some timely words from the Carlisle Democrat: "Every Democrat in Kentucky should put on his fighting clothes and get ready for the coming November election. The Republicans are making their boasts as to what they are going to do, and it remains only for us to meet them. Coming into power at the time it did, the party was made heir of the ills that followed a long term of Republican legislation and extravagance, and of course is placed in the disagreeable attitude of trying to right the wrongs. Added to this is the very dangerous condition of having enemies in our own camp who have floated in on the tidal wave. The Democratic party needs its friends now, and those who are true at heart should feel the responsibility that rests upon them to stand firm, and fight as never before. Organization is what is needed!"

The reports from Washington the past day or two point to the early passage of the tariff bill by the Senate. The sooner the better.

CHARLESTON, W. VA., capital will back an army of 500 miners in a trip to join the Cockey clan at Washington, D. C., in a last effort to kill the Wilson bill, says the Ashland News. So the capitalists are back of the commonweal tramps, after all. Tramps can be hired to do most anything nowadays.

SAM HART, aged fifteen, and Emaline Franklin, aged thirteen, of Letcher County, were married a few days ago.

A TWO-WEEKS' protracted meeting at Carlisle Baptist Church closed with fifteen additions to the membership.

Mrs. W. R. CADY, who has been dangerously ill for several days, was thought to be somewhat better this morning.

JOHN FIELDS and Miss Maggie M. Phillips, of this county, were married Thursday at County Clerk's office by Judge Phister.

FIELD McLEOD, of Versailles, an Owens man, has been chosen Chairman of the Democratic Executive Committee in the Lexington district.

The great meeting at Danville Methodist Church closed with nearly sixty conversions and more than forty additions to the membership.

It is now thought that the man killed a few weeks ago by the F. F. V. near Coney Island was William Knaus, whose home was near Portsmouth.

C. H. DUTY, of the Fleming Gazette, is again dangerously ill, and has to give up all work. He has disposed of his paper and has returned to Mt. Sterling.

VANCEBURG, LEWIS COUNTY.

John Allis, a young man of this place, is at the point of death. He has had the rheumatism for twenty years and was stricken with paralysis a few day ago and can neither speak or eat anything.

Mrs. Parker, the widow of the late Seth Parker, is a great deal worse at this writing. She was thought to be a great deal better the first of the week, but was taken worse and is now thought to be critically ill.

A Mrs. McCall, who lives just east of this place, is very poorly with something like the dropsy. She is so swollen she can not lay down for fear of smothering to death, and has been in this condition for several days.

We have a gentleman here by the name of Postal who is the owner of 12,500 acres of land in this county. He is from the State of Michigan. He was out this week looking over his land in company with Clerk E. A. Jones.

A man by the name of Walton shot Geo. Ham a few days ago, the ball passing through his pants just below the knee. Ham then got hold of the pistol to prevent any further shooting, and just then the Deputy City Marshal came up and prevented further trouble.

PITHY POINTS

Concerning Cockey and His Commonweal Cranks Now Tramping to Washington City.

We should much prefer to deal with Cockey's army than to have them deal with us.

This tramping is no new thing to the majority of Cockey's army, for we suspect they were born "tramps."

We suppose there is nothing known about "rank" in Cockey's army excepting it may be a rank smell.

The commonweal army ought to know all about building roads, as we presume the most of them are graduates of the rock pile.

It would be almost as hard to find an honest workman in the ranks of Cockey's army as it would to find a dollar in any of their pockets.

The grievances of the commonweal army may need redressing, but we incline to the belief that their hodies will stand more in need of it by the time they reach the capital.

Cockey's army claim that their object in going to Washington is to petition Congress for a redress of certain grievances. The kind of dress that would most become them would be a striped shirt.

It seems that the question of how to handle Cockey's army is a rather perplexing one to the Washington authorities. We would rather handle the question than the men themselves, unless they were first introduced to the waters of the Potomac.

The Kenton Circuit Court is again engaged in the laudable effort to drive the pool rooms out of Covington. One operator was fined \$500 this week.

The Old Friend

And the best friend that never fails you is Simmons Liver Regulator, (the Red Z)—that's what you hear at the mention of this excellent Liver medicine, and people should not be persuaded that anything else will do.

It is the King of Liver Medicines; is better than pills, and takes the place of Quinine and Calomel. It acts directly on the Liver, Kidney and Bowels and gives new life to the whole system. This is the medicine you want. Sold by all Druggists in Liquid, or in Powder to be taken dry or made into a tea.

The following is the full Democratic ticket recently nominated in Robertson county: W. T. Kenton, County Judge; D. M. Reveal, Sheriff; T. L. Green, County Clerk; Chas. B. Morford, County Attorney; W. J. Woodward, Jailor; J. W. Harding, Assessor, and O. P. Overby, Coroner.

DOVER NEWS: "There was a large crowd of people gathered at the river last Sunday afternoon to witness the immersion of seventeen persons who had united with the Minerva Christian Church during the protracted meeting just closed. Among those immersed were Dr. Samuel Reed, aged seventy-eight years, and Mr. John Sidwell, aged eighty-four."

Two of General Hood's daughters twins, spent the winter in Baltimore, where they were much admired. They live in Pennsylvania with an aunt, and have traveled in Europe. Their mother was a daughter of the late Judge Alfred Hennen, of New Orleans, and was a beautiful and accomplished lady. Their gallant and distinguished father was born in Bath County, near Owingsville, in 1832, and died of yellow fever in New Orleans a few years ago, his wife dying at the same time.

Catarrh Cured.

No Incurable Cases Taken.

COMING VISIT, WEDNESDAY, MAY 9th.
 One Day, Till 3:30 p. m.

DR. APPLEMAN is a graduate of Bellevue Hospital Medical College, New York City, and has had seven years experience in the great hospitals of that city. His wonderful work—

HUNDREDS of CURES,

have caused the old foggy doctors of the State so much uneasiness that for the past two years they have been doing all in their power to stop his practice.

Shall the sick remain sick, and the suffering continue to suffer? Yes, says the general practitioner, rather than let Dr. Appleman help you. NO, says Dr. Appleman.

Come to Me and Be Cured if it is in My Power to do it.

John Whittington, 216 N. Walnut street, Maysville, says: "I have tried seven doctors and none have done me any good. Have not worked for six months. I am now able to work after one month of your treatment."

The doctors are astonished, and ask, "What is he doing?" Is that enough? H. H. King, Helena, M. D. Cord, Flemingsburg, Chas. Ashury, Maysville, L. J. Wells, Helena, and fifty others can and do speak of the good Dr. Appleman is doing. Consult this eminent Specialist on his coming visit. He treats

Eye, Ear, Nose, Throat,

Chronic Troubles, Diseases of Women and Diseases of Men.

CONSULTATION FREE!

BUILDING ASSOCIATIONS

And Banks—Some Interesting Figures Showing the Condition of Those in Kentucky.

Secretary of State Headley has completed a summary of the statements of the banks in Kentucky.

The reports show 167 banks in operation in the State, and since the reports were called for, the Bank of Columbus, which suspended last fall, has resumed business, and a new bank has been organized at Lewisburg.

The reports for the last quarter are made as of March 26, 1894, and the summary is as follows:

Liabilities.	
Capital stock.....	\$15,994,119 79
Surplus.....	5,538,943 94
Deposits.....	23,214,050 69
Due banks.....	3,798,696 13
Resources.	
Loans and discounts.....	\$33,789,859 51
Due from banks.....	6,717,172 33
Cash and cash items.....	8,431,029 93

The thirteen private banks in the State are required under the law to report semi-annually, and as their reports are made in July and January they are not taken into account when comparing the above figures.

The reserve which the banks are required under the law to keep on hand is represented by the term "cash and cash items" and "due from banks." The law requires Louisville banks to keep a reserve of 25 per cent. of deposits, one third of which must be in money; and banks in other places in the State must keep a reserve of 15 per cent., one third of which must be in money.

The reports show that this has been strictly complied with, and that many of them have more than one half of their reserve in money.

The following is the summary of all the building and loan associations in the State, which is made up from reports similar to those made by the banks:

Report from Building and Loan Associations of date December 31, 1893:

Assets.	
Loans on real estate and passbooks.....	\$12,817,966 15
Real estate owned.....	229,582 18
Other assets.....	948,878 81
Total.....	\$13,978,726 64

Liabilities.	
Due shareholders for paid up stock and installments.....	\$10,712,299 04
Due shareholders for earnings.....	1,231,594 42
Other liabilities.....	2,034,833 18
Total.....	\$13,978,726 64

Receipts.	
Subscription on shares and paid up stock.....	\$4,005,609 78
Mortgages redeemed, in whole or in part.....	1,488,807 99
Premiums received.....	167,282 05
Interests received.....	701,783 26
Fines received.....	20,580 26
Other receipts.....	2,009,820 17
Total.....	\$8,393,385 52

Disbursements.	
Loaned on mortgages and passbooks.....	\$3,662,873 69
Paid on matured stock.....	173,197 29
Paid on withdrawals, dues.....	2,406,363 69
Paid on withdrawals, interests.....	215,401 22
Paid salaries, commissions and agents and attorney fees.....	119,186 06

FASTER TIME.

That's the Object of the C. and O.'s New Train Between Cincinnati and Washington.

"The new through vestibuled passenger train that the C. and O. will put on between Cincinnati and Washington City May 13th will eclipse anything for time and accommodations that has yet been attempted in the way of transportation between the two cities," says the Enquirer.

"When this service was first conceived there was a doubt whether the time of the old through trains could be shortened and at the same time maintain the standard and excellence of the service, but the trial trip between Cincinnati and Huntington, W. Va., a distance of 162 miles, was most satisfactory and demonstrated that the proposed through train will be a great improvement over the old service and a convenience to travelers that will become popular and be appreciated.

"With two stops between Cincinnati and Huntington, the train arrived at the latter place at 3:55 o'clock, 30 minutes ahead of the scheduled time of the present fastest train.

"It is the intention of the company to run the new train through to Washington with but two stops between Cincinnati and the Capital City, and the running time between the two points will be reduced fully 45 minutes."

TEST OF STRENGTH.

The Strike on the Great Northern Railroad.

BLOODSHED IS LOOKED FOR.

All Overtures For a Peaceful Settlement Have Been Declared Off, and War Declared on Its 4,495 Miles of Track—The American Railway Union, a New Organization, Managing the Strike.

ST. PAUL, April 27.—All overtures for a peaceful settlement of the Great Northern railroad strike have been declared off, and the company and the American Railway union have begun a test of strength that may cause considerable bloodshed before it ends. The Great Northern railroad extends from this city to the coast, with many branches in this state and the Dakotas, and its 4,495 miles of track goes through considerable comparatively new country where no other means of traffic are to be had, and where the conditions of society allow a somewhat rougher element to control affairs.

The result is that when the road begins to run its trains with new men there will be war to the knife and perhaps with it. It is believed to have been this fact almost as much as the desire to give his men every chance to make known their grievances that induced President Hill to wait two weeks without an attempt to get out any other than mail trains, but he started the first freight in two weeks yesterday, and the battle may be said to have been begun.

The officials of the road secured the issuance by the United States court in this state and Dakota and also in Montana, restraining orders ordering the men not to interfere in any way with the handling of the road. Under this order, deputies were sent out on all mail trains and beginning yesterday they went out on the freight trains as well. During the time that the strikers have been preventing the running of the road, a committee of 35 members of the American Railway union, employees of the road, assembled in this city in accordance with a reply favorable to their request for a conference with the officials of the road.

At the start of the conference President Hill announced his willingness to arbitrate, but agreed to try the possibility of a conference first. When they came together yesterday, the men demanded as the first condition that the road grant all their demands for the renewal of the wage schedules in force prior to last August. This Mr. Hill declined, and the day ended without a conclusion being reached. The conference was resumed yesterday.

Late yesterday afternoon the men sent a brief communication to President Hill, unconditionally rejecting his proposal for arbitration, renewing their demand for the old schedules and giving him to understand that this is their ultimatum. Mr. Hill sent a reply to the men in which he said that the action of the men ends all conferences and negotiations as far as he is concerned. He will no longer recognize the American Railway union and will, at once, proceed to operate the Great Northern road without regard to that organization.

A very important side issue in this contest is the fact that the strike was declared and is being managed by the new organization, the American Railway union, practically in opposition to the federated brotherhoods of railway engineers, firemen, conductors and trainmen.

Some members of the brotherhoods are also members of the union, but many others are not, and as the brotherhoods have signed schedules with the road, the men feel that they must agree to their contracts, even though they might not like everything. The freight train that went out yesterday afternoon on its way to the coast was manned by brotherhood men and old employees of the company.

The union leaders claim they will have all the men on the line out, and it yet remains to be seen whether the men will go with the union or stand by the brotherhoods. The brotherhood chiefs are apparently taking no active part in the fight, although it is considered something in the nature of a fight for existence between the two organizations.

Were Intimidated. ST. CLOUD, Minn., April 27.—Most of the Great Northern shopmen who left their places Wednesday have agreed to return to work, and nearly all went back yesterday. It appears that the men were induced to quit under intimidations.

A. P. A. Among Railroad Men. MOORE'S HILL, Ind., April 27.—Among the railway men employed on the Baltimore and Ohio Southwestern the organization known as the A. P. A. is said to have numerous converts. A railroad man is the authority for the statement that the majority of the engine and train employees of the road have become members of the order. A strong lodge is located at Seymour. A lodge was to be started at Aurora some time ago, and a movement for one was begun at Milan.

Forty Days Without Sleep. BOURBON, Ind., April 27.—Forty days have passed since Frank Woodruff, a wealthy farmer of this city, has slept. He was afflicted with the same strange malady two years ago, when he went 60 days without sleep. He is to all appearances healthy and works every day. His physicians have failed to produce even stupor with drugs used.

Examination of Witnesses Begun. FRANKLIN, Ind., April 27.—The Parker and McAfee trial was resumed yesterday morning, the courtroom being crowded with spectators. Objections being raised to some of the jurymen serving by the defense, the morning was spent in obtaining substitutes. The examination of witnesses began in the afternoon.

FLEMING News; "Robt. Darnall and James O'Garr cut down a tree about 31 feet through, near Crain's last week, and in a hollow in the heart of it found a gate hinge, breast chain and a 22-calibre pistol. No opening was visible from the outside through which these things might have been placed there. It had doubtless grown over and the articles had been encased in the tree for many years.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system; dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

It Removes Dandruff,
Cleans the Scalp,

ELECTRIC ROAD SCHEME.

From Washington to New York on an Elevated Track Proposed.

WASHINGTON, April 27.—The National Rapid Transit company, whose scheme was advocated before the house judiciary committee by Congressman Hemphill, asks a charter authorizing the construction of an elevated electric railway between New York and Washington. The road is to carry passengers, mails and light freightcars on each train, and is to cover the distance in about two hours, and the passenger rate is not to exceed 2 cents per mile.

The committee seemed to think favorably of the scheme, but the question was raised as to the power of congress to grant a right of way through the states. Mr. Hemphill claimed that the power was vested in congress and cited instances where it had been granted. The matter was referred to a subcommittee.

Will Probably Be Lynched.

SOLOMONVILLE, A. T., April 27.—Two horse-thieves have been caught near Duncan, A. T., with 25 head of stolen horses in their possession. The stock was taken from a ranch near White Oaks, Lincoln county, N. M.
